## Give Your Baby the Keys to a Greener Life

*Dandelion Earth-Friendly Goods by Re-Think It, Inc. introduces its new line of Cornstarch Keys & Attaching Links.*

**Winter Park, FL** — Babies love to explore their many senses, but as most parents know, baby's curiosity to explore new objects usually leads to a final trip into baby's mouth. It is important that parents feel confident that their babies are playing with toys that are not only stimulating, but also safe to teethe on. Dandelion Earth-friendly Goods is continuing its fight for a brighter future for our children and the planet with the introduction of its new *Cornstarch Teething Keys* and *Attaching Links*.

Dandelion has expanded its already popular cornstarch feeding line to include *Teething Keys and Attaching Links*. Made from all natural cornstarch bioplastic, which is free of BPA, Phthalates and PVC, these new additions are safe for teething - *Naturally!*

The *Teething Keys* have been designed with a white locking ring that securely holds three Keys. The keys have three unique shapes in three vibrant colors. Babies will love shaking the Tomato Red, Green Bean & Yellow Squash keys to hear the sound, grasping and exploring the multi texture surfaces, all while safely teething.

The new set of six *Attaching Links* will encourage curiosity and grasping, while also keeping toys securely attached to a stroller, diaper bag, highchair, etc. Stimulate baby by fastening toys within their sight and reach with Tomato Red, Green Bean and Yellow Squash links, made from Dandelion's natural cornstarch formula. Since the links are BPA-free, phthalate-free and PVC-free, parents can feel at ease knowing that their baby is safe from ingesting harmful chemicals.

The new line *Cornstarch Keys & Links* will be available at juvenile specialty and natural product retailers nationwide. Please visit [www.dandelionforbaby.com](http://www.dandelionforbaby.com) for more information, to find a retailer near you, or to order directly. MSRP: \$7.99
